Felsburg, P.J., *see* HogenEsch, H. and Felsburg, P.J.
Finch, J.M. and Turner, R.J. (Aberystwyth, Great Britain)
Enhancement of ovine lymphocyte responses: a comparison of selenium and vitamin E supplementation 245
Gagliardo, L.F., *see* Appleton, J.A. et al.
Gatei, M.H. (Brisbane, Qld., Australia), Brandon, R.B., Naif, H.M. (Herston, Qld., Australia), McLennan, M.W., Daniel, R.C.W. (Brisbane, Qld., Australia) and Lavin, M.F. (Herston, Qld., Australia)
Changes in B cell and T cell subsets in bovine leukaemia virus-infected cattle 139
Gatei, M.H., *see also* Brandon, R.B. et al.
Genovesi, E.V., Knudsen, R.C., Gerstner, D.J., Card, D.M., Martins, C.L.V., Quintero, J.C. and Whyard, T.C. (Greenport, NY, U.S.A.)
In vitro induction of swine peripheral blood monocyte proliferation by the fibroblast-derived murine hematopoietic growth factor CSF-1 223
Gerstner, D.J., *see* Genovesi, E.V. et al.
Glick, B., *see* Van der Zijpp, A.J. et al.
Goel, M.C., *see* Jain, A. and Goel, M.C.
Gorman, N.T., *see* Holmes, M.A. et al.
Grommers, F.J., Van de Geer, D., Van der Vliet, H., Henricks, P.A.J. and Nijkamp, F.P. (Utrecht, The Netherlands)
Polymorphonuclear leucocyte function: relationship between induced migration into the bovine mammary gland and in vitro cell activity 75
Groves, D.J. (Guildford, Great Britain) and Tucker, E.M. (Cambridge, Great Britain)
The production and application of non-rodent monoclonal antibodies in veterinary science 1
Gumerlock, P.H., *see* Meyers, F.J. et al.
Hall, M.R., *see* Williams, P.P. et al.
Henricks, P.A.J., *see* Grommers, F.J. et al.
Hill, R., *see* Couto, C.G. et al.
HogenEsch, H. and Felsburg, P.J. (Urbana, IL, U.S.A.)
Development and functional characterization of T cell lines from canine Peyer's patches 29
Høier-Madsen, M., *see* Mouritsen, A. et al.
Holmes, M.A., Duffus, W.P.H. (Cambridge, Great Britain) and Gorman, N.T. (Glasgow, Great Britain)
Natural cytotoxicity in the dog: description of two new allogeneic tumour targets 161
Jain, A. and Goel, M.C. (Hisar, India)
Studies on activation and levels of haemolytic complement of buffalo (*Bubalus bubalis*). 1. Classical complement pathway 267
Johnson, G., *see* Couto, C.G. et al.
Kelley, K., *see* Salmon, H. et al.
Klinman, N.R., *see* Pinkert, C.A. et al.
Knudsen, R.C., *see* Genovesi, E.V. et al.
Kociba, G., *see* Couto, C.G. et al.
Krakowka, S., *see* Couto, C.G. et al.
Kramer, T.T., *see* Roof, M.B. and Kramer, T.T.
Kreukniet, M.B., *see* Van der Zijpp, A.J. et al.
Labonnardiere, C., *see* Salmon, H. et al.

Lavin, M.F., *see* Brandon, R.B. et al.; Gatei, M.H. et al.
Lederer, J.A. and Czuprynski, C.J. (Madison, WI, U.S.A.)
Species preference of bovine thymocytes and fibroblasts for bovine interleukin 1 213
Lederer, J.A. and Czuprynski, C.J. (Madison, WI, U.S.A.)
Production and purification of bovine monocyte-derived interleukin 1 201
Lewin, H.A., *see* Romano, M.J. et al.
Linton, P.J., *see* Pinkert, C.A. et al.

ras p21 expression in ovine pulmonary carcinoma 279
Minocha, H.C., *see* Reddy, P.G. et al.
Misfeldt, M.L., *see* Richerson, J.T. and Misfeldt, M.L.
Morrill, J.L., *see* Reddy, P.G. et al.
Mouritsen, A., Aasted, B. and Høier-Madsen, M. (Copenhagen, Denmark)
Mink with Aleutian disease have autoantibodies to some autoantigens 179
Naif, H.M., *see* Brandon, R.B. et al.; Gatei, M.H. et al.
Newman, J.A., *see* Barbour, E.K. et al.
Nijkamp, F.P., *see* Grommers, F.J. et al.
O'Rourke, K.I., Perryman, L.E. and McGuire, T.C. (Pullman, WA, U.S.A.)
Cross-neutralizing and subclass characteristics of antibody from horses with equine infectious anemia virus 41
Oliver, M., *see* Salmon, H. et al.
Paraf, A., *see* Salmon, H. et al.
Perryman, L.E., *see* O'Rourke, K.I. et al.
Pinkert, C.A. (Athens, OH, U.S.A.), Manz, J. (Chicago, IL, U.S.A.), Linton, P.J., Klinman, N.R. (La Jolla, CA, U.S.A.) and Storb, U. (Chicago, IL, U.S.A.)
Elevated PC responsive B cells and anti-PC antibody production in transgenic mice harboring anti-PC immunoglobulin genes 321
Poleman, J.C., *see* Appleton, J.A. et al.
Quintero, J.C., *see* Genovesi, E.V. et al.
Ram, G.C., *see* Arunachalam, B. et al.
Reddy, P.G., Blecha, F., Minocha, H.C., Anderson, G.A. (Manhattan, KS, U.S.A.), Morrill, J.L. (Lincoln, NE, U.S.A.), Fedorka-Cray, P.J. (Manhattan, KS, U.S.A.) and Baker, P.E. (Seattle, WA, U.S.A.)
Bovine recombinant interleukin-2 augments immunity and resistance to bovine herpesvirus infection 61
Rees, A.S. (Langford, Great Britain), Lysons, R.J. (Compton, Great Britain), Stokes, C.R. and Bourne, F.J. (Langford, Great Britain)
The effect of parenteral immunisation on antibody production in the pig colon 171
Reis, K.J. (Gainesville, FL, U.S.A.)
A hemolytic assay for the measurement of equine complement 129
Richerson, J.T. and Misfeldt, M.L. (Columbia, MO, U.S.A.)
Host environment as modulating factor of swine natural killer cell activity 309
Rimler, R.B., *see* Thurston, J.R. et al.

Romano, M.J., Stewart, J.A. and Lewin, H.A. (Urbana, IL, U.S.A.)
Phenotypic characterization of bovine lymphoblastoid cell lines 293
Roof, M.B. and Kramer, T.T. (Ames, IA, U.S.A.)
Porcine neutrophil function in the presence of virulent and avirulent *Salmonella choleraesuis* 365
Sacks, J., *see* Thurston, J.R. et al.
Salmon, H. (Nouzilly, France), Charley, B., Labonnardiere, C. (Jouy-en-Josas, France), Oliver, M. (Nouzilly, France), Kelley, K. (Urbana-Champaign, IL, U.S.A.) and Paraf, A. (Nouzilly, France)
Natural killer (NK) activity and interferon (IFN) production by a fraction of spleen and blood lymphocytes in swine 113
Scott, T.R., *see* Van der Zijpp, A.J. et al.
Siwicki, A.K. (Piaseczno, Poland), Anderson, D.P. and Dixon, O.W. (Kearneysville, WV, U.S.A.)
Comparisons of nonspecific and specific immunomodulation by oxolinic acid, oxytetracycline and levamisole in salmonids 195
Stewart, J.A., *see* Romano, M.J. et al.
Stokes, C.R., *see* Rees, A.S. et al.
Storb, U., *see* Pinkert, C.A. et al.
Subba Rao, M.V., *see* Arunachalam, B. et al.
Thurmond, M.C., *see* Tyler, J.W. et al.
Thurston, J.R., Cheville, N.F., Rimler, R.B. and Sacks, J. (Ames, IA, U.S.A.)
Serum complement activity and serum enzymes in rats after a subcutaneous injection of toxin prepared from *Pasteurella multocida* type D 385
Tucker, E.M., *see* Groves, D.J. and Tucker, E.M.
Turner, R.J., *see* Finch, J.M. and Turner, R.J.
Tyler, J.W., Cullor, J.S., Thurmond, M.C., Douglas, V.L. and Dellinger, J.D. (Davis, CA, U.S.A.)
Humoral response in neonatal calves following immunization with *Escherichia coli* (strain J5): the effects of adjuvant, age and colostral passive interference 333
Van de Geer, D., *see* Grommers, F.J. et al.
Van der Vliet, H., *see* Grommers, F.J. et al.
Van der Zijpp, A.J. (Wageningen, The Netherlands), Scott, T.R., Glick, B. (Clemson, SC, U.S.A.) and Kreukniet, M.B. (Wageningen, The Netherlands)
Interference with the humoral immune response in diverse genetic lines of chickens. II. The effect of colloidal carbon 187
Wallgren, P., *see* Artursson, K. et al.
Whyard, T.C., *see* Genovesi, E.V. et al.
Williams, P.P. (Ames, IA, U.S.A.), Hall, M.R. (Charles City, IA, U.S.A.) and McFarland, M.D. (Des Moines, IA, U.S.A.)
Immunological responses of cross-bred and in-bred miniature pigs to swine poxvirus 149

SUBJECT INDEX

Aleutian disease
Mink with Aleutian disease have autoantibodies to some autoantigens 179
Autoantibodies
Mink with Aleutian disease have autoantibodies to some autoantigens 179
Bovine herpesvirus (BHV)
Bovine recombinant interleukin-2 augments immunity and resistance to BHV 61
Bovine leukaemia virus (BLV)
Observations on blood leucocytes and lymphocyte subsets in sheep infected with bovine leukaemia virus: a progressive study 15
Changes in B cell and T cell subsets in BLV-infected cattle 139
Phenotypic characterization of bovine lymphoblastoid cell lines 293
Buffalo
Studies on activation and levels of haemolytic complement of buffalo (*Bubalus bubalis*). 1. Classical complement pathway 267
Cattle
Bovine recombinant interleukin-2 augments immunity and resistance to BHV 61
Polymorphonuclear leucocyte function: relationship between induced migration into the bovine mammary gland and in vitro cell activity 75
Changes in B cell and T cell subsets in BLV-infected cattle 139
Production and purification of bovine monocyte-derived interleukin 1 201
Species preference of bovine thymocytes and fibroblasts for bovine interleukin 1 213
Humoral response in neonatal calves following immunization with *Escherichia coli* (strain J5): the effects of adjuvant, age and colostral passive interference 333
Bovine interleukin 2: biochemical and biological characterization 377
Chicken
Interference with the humoral immune response in diverse genetic lines of chickens. II. The effect of colloidal carbon 187
Colon
The effect of parenteral immunisation on antibody production in the pig colon 171
Colony-stimulating factor
In vitro induction of swine peripheral blood monocyte proliferation by the fibroblast-derived murine hematopoietic growth factor CSF-1 223
Complement
A hemolytic assay for the measurement of equine complement 129
Studies on activation and levels of haemolytic complement of buffalo (*Bubalus bubalis*). 1. Classical complement pathway 267
Serum complement activity and serum enzymes in rats after a subcutaneous injection of toxin prepared from *Pasteurella multocida* type D 385
Dog
Development and functional characterization of T cell lines from canine Peyer's patches 29
In vitro immunologic features of Weimaraner dogs with neutrophil abnormalities and recurrent infections 103
Natural cytotoxicity in the dog: description of two new allogeneic tumour targets 161
Equine infectious anemia virus (EIAV)
Cross-neutralizing and subclass characteristics of antibody from horses with EIAV 41
Equine influenza virus
Production of an equine monoclonal antibody specific for the H7 hemagglutinin of equine influenza virus 257

Escherichia coli
Polymorphonuclear leucocyte function: relationship between induced migration into the bovine mammary gland and in vitro cell activity 75
Humoral response in neonatal calves following immunization with strain J5: the effects of adjuvant, age and colostral passive interference 333
Fish
Comparisons of nonspecific and specific immunomodulation by oxolinic acid, oxytetracycline and levamisole in salmonids 195
Heterohybridomas
The production and application of non-rodent monoclonal antibodies in veterinary science 1
Production of an equine monoclonal antibody specific for the H7 hemagglutinin of equine influenza virus 257
Horse
Cross-neutralizing and subclass characteristics of antibody from horses with EIAV 41
Influence of technical parameters on the in vitro motility of equine neutrophils in the presence of streptococcal culture supernatant 85
A hemolytic assay for the measurement of equine complement 129
Production of an equine monoclonal antibody specific for the H7 hemagglutinin of equine influenza virus 257
Immunomodulation
Comparisons of nonspecific and specific immunomodulation by oxolinic acid, oxytetracycline and levamisole in salmonids 195
Interferon
Natural killer (NK) activity and interferon (IFN) production by a fraction of spleen and blood lymphocytes in swine 113
Appearance of interferon-α in serum and signs of reduced immune function in pigs after transport and installation in a fattening farm 345
Interleukin
Development and functional characterization of T cell lines from canine Peyer's patches 29
Bovine recombinant interleukin-2 augments immunity and resistance to BHV 61
Production and purification of bovine monocyte-derived interleukin 1 201
Species preference of bovine thymocytes and fibroblasts for bovine interleukin 1 213
Bovine interleukin 2: biochemical and biological characterization 377
Lung
ras p21 expression in ovine pulmonary carcinoma 279
Lymphoblastoid cell lines
Phenotypic characterization of bovine lymphoblastoid cell lines 293
Mammary gland
Polymorphonuclear leucocyte function: relationship between induced migration into the bovine mammary gland and in vitro cell activity 75
Mink
Mink with Aleutian disease have autoantibodies to some autoantigens 179
Monocytes
Production and purification of bovine monocyte-derived interleukin 1 201
In vitro induction of swine peripheral blood monocyte proliferation by the fibroblast-derived murine hematopoietic growth factor CSF-1 223
Mouse
Elevated PC responsive B cells and anti-PC antibody production in transgenic mice harboring anti-PC immunoglobulin genes 321
Western blot analyses and LD_{50} determinations of *Toxoplasma gondii* isolates 355

Natural killer cells
Natural killer (NK) activity and interferon (IFN) production by a fraction of spleen and blood lymphocytes in swine 113
Natural cytotoxicity in the dog: description of two new allogeneic tumour targets 161
Host environment as modulating factor of swine natural killer cell activity 309
Neutrophils
Observations on blood leucocytes and lymphocyte subsets in sheep infected with bovine leukaemia virus: a progressive study 15
Influence of technical parameters on the in vitro motility of equine neutrophils in the presence of streptococcal culture supernatant 85
In vitro immunologic features of Weimaraner dogs with neutrophil abnormalities and recurrent infections 103
Newcastle disease virus
Identification of the antigenic components of paramyxovirus-3, paramyxovirus -6 and Newcastle Disease Virus in turkeys 51
Paramyxovirus
Identification of the antigenic components of paramyxovirus-3, paramyxovirus-6 and Newcastle Disease Virus in turkeys 51
Pasteurella multocida
Serum complement activity and serum enzymes in rats after a subcutaneous injection of toxin prepared from *Pasteurella multocida* type D 385
PBLs
Changes in B cell and T cell subsets in BLV-infected cattle 139
Immunological responses of cross-bred and in-bred miniature pigs to swine poxvirus 149
Enhancement of ovine lymphocyte responses: a comparison of selenium and vitamin E supplementation 245
Production of an equine monoclonal antibody specific for the H7 hemagglutinin of equine influenza virus 257
Bovine interleukin 2: biochemical and biological characterization 377
PBMCs
Appearance of interferon-α in serum and signs of reduced immune function in pigs after transport and installation in a fattening farm 345
Peyer's patches
Development and functional characterization of T cell lines from canine Peyer's patches 29
Pig
Natural killer (NK) activity and interferon (IFN) production by a fraction of spleen and blood lymphocytes in swine 113
The effect of parenteral immunisation on antibody production in the pig colon 171
In vitro induction of swine peripheral blood monocyte proliferation by the fibroblast-derived murine hematopoietic growth factor CSF-1 223
Appearance of interferon-α in serum and signs of reduced immune function in pigs after transport and installation in a fattening farm 345
Porcine neutrophil function in the presence of virulent and avirulent *Salmonella choleraesuis* 365
Pig, miniature
Immunological responses of cross-bred and in-bred miniature pigs to swine poxvirus 149
Host environment as modulating factor of swine natural killer cell activity 309
PMNs
Polymorphonuclear leucocyte function: relationship between induced migration into the bovine mammary gland and in vitro cell activity 75

Porcine neutrophil function in the presence of virulent and avirulent *Salmonella choleraesuis* 365
Proto-oncogene
ras p21 expression in ovine pulmonary carcinoma 279
Rat
Serum complement activity and serum enzymes in rats after a subcutaneous injection of toxin prepared from *Pasteurella multocida* type D 385
Salmonella choleraesuis
Porcine neutrophil function in the presence of virulent and avirulent *Salmonella choleraesuis* 365
Sheep
Observations on blood leucocytes and lymphocyte subsets in sheep infected with bovine leukaemia virus: a progressive study 15
Enhancement of ovine lymphocyte responses: a comparison of selenium and vitamin E supplementation 245
ras p21 expression in ovine pulmonary carcinoma 279
Skin
Immunological responses of cross-bred and in-bred miniature pigs to swine poxvirus 149
Spleen
Natural killer (NK) activity and interferon (IFN) production by a fraction of spleen and blood lymphocytes in swine 113
Swine poxvirus
Immunological responses of cross-bred and in-bred miniature pigs to swine poxvirus 149
Techniques
The production and application of non-rodent monoclonal antibodies in veterinary science 1
Influence of technical parameters on the in vitro motility of equine neutrophils in the presence of streptococcal culture supernatant 85
Toxoplasma gondii
Western blot analyses and LD_{50} determinations 355
Transgenes
Elevated PC responsive B cells and anti-PC antibody production in transgenic mice harboring anti-PC immunoglobulin genes 321
Turkey
Identification of the antigenic components of paramyxovirus-3, paramyxovirus-6 and Newcastle Disease Virus in turkeys 51
